APodA NSW

Procedural Techniques Workshop
Injection Techniques, Partial Nail Avulsion & Wart Curettage

Intensive 1 Day Cadaver Workshop

Presenter: Dr Haydar Ozcan Podiatric Surgeon

This purposely designed workshop will enhance the podiatrist's clinical and diagnostic skills of the foot and ankle pathology, using injection techniques, covering pathologies such as neuroma, heel pain, subtalar joint injections and more. The group will cover current techniques in partial Nail Avulsion and Wart Curettage techniques while working on real feet.

This is a hands-on session working in small groups – so don't miss out!

Sydney Hospital (Cadaver Labs) Level 3 North Block Macquarie Street, Sydney

Saturday, 30 August 2014
